Note:

- * The shipping company may also use it's own form, if approved by Neptune Energy
- * All information in the form must be filled out with name, position and validation dates of the courses.
- * Information given on the form must be backed by documentation to be presented during inspections by the operator or persons who have been assigned to carry out shipboard inspections of the vessel on behalf of the operator.
- * The qualifications requirements for crew on board offshore service vessels are described in NOROG - "Guidelines for safety and emergency response training".
- * STCW A-VI/4-1 corresponds to NOROG course "Advanced first aid", STCW A-VI/3 corresponds to NOROG's "Fire brigade course"
