UHF radio communication: Separate frequencies for use during mooring operations. These are described in the mooring manual and the UHF ship frequency plan.

More base-specific info may be obtained in connection with port calls or operations at the various bases. This may include, but is not limited to, the following:

- Location and date/time of cargo meetings
- Routines for water filling and sampling
- UHF frequency overview of the base
- Limitations on carrying out hot work on the vessel
- More detailed contact information
- Limitation on carrying out vessel washdown
